Education

MIT Academy of Engineering (MITAOE), Alandi — Pune | Sep 2024 – Expected Jun 2028
Bachelor of Technology — Computer Science & Engineering (AI/ML)

- Relevant Coursework: Machine Learning, Data Structures & Algorithms, Database Management Systems, Probability & Statistics, Object-Oriented Programming, Generative AI, Software Architecture

Jai Hind Junior College, Pimpri — Pune | Aug 2022 – Apr 2024
Higher Secondary Certificate (HSC) — Science (Physics, Chemistry, Mathematics, IT) — *Score: 77%*

Experience

Sagveek Technologies Pvt Ltd — Pune, Maharashtra, India
AI/ML Intern – Healthcare AI Solutions — *Jun 2026 – Jul 2026*

- Engineered the core AI chatbot and RAG pipeline for **MedDevice.AI**, leveraging **Python**, **TF-IDF**, **Flask**, **Cosine Similarity**, **Retrieval-Augmented Generation (RAG)**, and **FAISS** to provide context-aware medical device assistance and recommendations.
- Implemented **Tesseract OCR** for medical report analysis, integrated secure authentication, personalized dashboards, chat history, speech recognition, and medical device ordering using **Supabase**, HTML, CSS, Bootstrap, and JavaScript, delivering a scalable end-to-end healthcare solution.

AAAI Student Chapter, MITAOE — Pune, Maharashtra, India
Membership & Outreach Coordinator — *Mar 2026 – Present*

- Spearheaded AI awareness campaigns, coordinated the chapter inauguration program, and actively promoted AAAI across the campus to drive student engagement.

Projects

Navonmesh — City-Wide AI ANPR & Traffic Analytics Engine | *YOLOv8, PaddleOCR, Leaflet* | View Project — 2026

- Implemented robust vehicle and license plate detection using **YOLOv8** and **PaddleOCR** with confidence scoring, paired with **ByteTrack** and Re-ID models for persistent cross-camera tracking.
- Engineered a centralized AI platform featuring 2D journey reconstruction, automated anomaly alerts, and traffic density visualization using **Flask**, **PostgreSQL**, and **Leaflet GIS**.

MedDevice.AI — AI-Powered Medical Device Assistant | *Python, Flask, RAG, FAISS, OCR* | View Project — 2026

- Designed and built an intelligent conversational medical device assistance chatbot utilizing **Machine Learning**, **Retrieval-Augmented Generation (RAG)**, and **FAISS**-based semantic search to guide users in discovering appropriate medical devices.
- Integrated **Tesseract OCR** for medical report analysis, allowing automatic extraction of clinical information and smart medical device recommendations based on uploaded reports.
- Built secure authentication, personalized dashboards, chat history, speech recognition, and medical device ordering using **Flask**, **Supabase**, HTML, CSS, Bootstrap, and JavaScript, delivering a responsive end-to-end healthcare solution.

AgroPulse — The Pulse of Smart Farming | *Python, ML, FastAPI, SQL, JavaScript* | View Project — 2025-Present

- Developed a full-stack smart agriculture platform connecting farmers and managers through intelligent crop monitoring, collaboration tools, and role-based dashboards using FastAPI and Supabase.
- Integrated Machine Learning and Computer Vision models for automated crop disease detection, predictive analytics, AI recommendations, and image-based insights.

Technical Skills

Languages: C++, Python, JavaScript, SQL, HTML, CSS
AI / ML: Scikit-learn, TensorFlow, YOLOv8, EfficientNet-B4, NumPy, Pandas, TF-IDF, RAG, FAISS, NLP
Backend & Databases: FastAPI, Flask, PostgreSQL, MySQL, Supabase
Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab
Domains: Computer Vision, Object Detection, OCR (Tesseract), Image Classification, Predictive Analytics, ANPR

Certifications & Achievements

Certifications: 1) AIML Internship Completion Certificate – Sagveek Technologies Pvt. Ltd., 2) Python Essentials 1 & 2 – Cisco Networking Academy, 3) Getting Started with Artificial Intelligence – IBM/Coursera, 4) Google AI Essentials – Google
Achievements: 1) Shortlisted for the Prototype Demonstration phase at the MIT ADT University AI Grand Challenge 2026 (National-level hackathon with 3,200+ applications and 600+ teams).
2)Nominated for Smart India Hackathon (SIH) 2026 representing MITAOE under problem statement SIH26127..
